## **Professional Experience**

### **Nobler Works LLC - September 2025-Present**

#### ***Solutions Architect***

- Design and implement AWS infrastructure solutions for startups and small businesses, leveraging Terraform, API Gateway, Lambda, EC2, and Bedrock to build custom solutions and SaaS offerings
- Build and deliver technical demos while engaging directly with customers in the field to understand requirements, provide solutions guidance, and build lasting client relationships
- Lead sales and discovery calls with prospective clients to assess technical needs, propose scalable cloud solutions, and contribute to go-to-market strategy development
- Drove end-to-end client acquisition, from closing SaaS development deals to authoring TCO, SOW, and SLA documentation that defined deliverables and service terms.

### **Trace Trust – March 2024 – August 2025**

#### ***Financial Assistant***

- Performed accurate financial data entry and maintained up-to-date financial documents and reports
- Maintained the trust's overall financial management and reporting accuracy
- Optimized financial processes, improving efficiency in data entry and reporting workflows

### **Black Kite Games – December 2021 – December 2023**

#### ***Marketing Consultant***

- Created and implemented marketing strategies to boost online presence and brand awareness by 250%
- Conducted market research and competitive analysis to identify trends and opportunities in the video game industry
- Provided design guidance across different product systems and features
